

## Selection Tools Tutorial Outline:

Objective: Remember that the primary objective of these tutorials is not to create something that looks exactly like what the tutorial does but to learn the **concepts** that are being taught and to create your own variation.

Directions: Follow along with the Selection Tools video tutorials (there are 2). Complete the steps that are described. As to make sure you don't lose any hard work along the way, make sure you save often!

Turn In: Just like the Lettering Assignment, make sure to name your tutorials assignments as you complete them; LastName\_FirstName Selection Tools. (Example: Goble\_Nick\_SelectionTools.) Once you finish the assignment, go to the Home page of our class website, click on the DropItToMe link (Password: lrhsdm) and submit your .PSD file of your project. **NOT a JPG, but the actual Photoshop Document**

No one's tutorial should look the same.
